PROPOSAL FOR AWARD TO THE ACADEMY OF SCIENCES OF CUBA

I hereby authorize the Center of Studies on Informatics of the Universidad Central "Marta Abreu" de Las Villas, to present the proposal for award to the Academy of Sciences of Cuba entitled "MÉTODOS PARA MEJORAR LA CAPACIDAD DE EXPLORACIÓN Y EXPLOTACIÓN EN LA BÚSQUEDA HEURÍSTICA", in which the Professor Dr. Ann Nowé is co-author. She is the Head of the Computational Modeling Lab (CoMo), from the Computer Science Department of the Vrije Universiteit Brussel, Belgium.

This proposal includes important scientific results in the Artificial Intelligence area, which show the usefulness of the cooperation developed by our institutions during the last years. The novelty of the results resulted in the publication of several articles in recognized scientific journals and international conferences.

Given in Brussels, September 4th, 2012.

Olga De Troyer
Head of the Computer Science Department
Vrije Universiteit Brussel
Belgium
