### 110V W15GR-15B Automatic Booster Pump With US Plug

W15GR-15B 110V, 120W Booster Pump			
Power:	120W	Current:	1.1A
Max Head:	15m	Rated Head:	10m
Max Flow:	25L/min	Rated Flow:	13L/min
Insulation:	B	Capacitance:	15uf
Temperature:	0-100℃	Volt/Freq:	110-120V/60Hz
Connection size on pump body: 3/4"			
Size of union and flow switch: 3/4" *1/2"			

## Application & Characteristics

### <1> Boost the pressure for gas heater

There may be a problem of failing to retrofire the gas heater caused by the low pressure of water supply, you can solve this problem easily and viably.

### <2>Boost the pressure for house water supply

The Home booster can increase the pressure of household water tank and keep a steady pressure

### <3>Boost the pressure of the water tank in apartment block

The top floor of the apartment has problems of low water pressure, low water flux and failure to retrofire the gas heater, which is caused by low water pressure. The booster can solve these problem.

### <4>Circulation for fishpond and aquarium

It can supply oxygen, and keep the water clean.

### <5>Circulation for equipments

The pump can be used as a circulator for some industry equipments, such as argon arc welding machine, laser apparatus, injection molding machine, etc. It can also be used for water treatment equipment and so on, and also can supply water for small boilers.

## Features

The automatic switch adopts electronics theory, controlled by water current. The pump boosts pressure automatically when the tap is on, and turned off when the water is not used. Its copper pump body, copper impeller and stainless steel shaft are corrosion-resistant, stainless. The whole pump is sealed well and the conveyance rate is large. It starts well, switches sensitively and automatically, produces low noise. It also is designed to be low temperature, small volume, delicate appearance.

## Main use

This pump absolutely solves the problem of shower owing to the lower pressure and unreliable pressure. When the tap water is of low pressure, the pump can boost the pressure, boost pressure and circulate water for industrial equipments, and increase oxygen for rearing ponds and fish tanks. GR hot-water pump can be used for solar water heaters, besides above using. GZ best feature is that it can suck tap water from one or two floor below directly. So it completely solves the problem that the high floor has no water.
