ANTIDOTE™

THE ULTIMATE CURE
FOR DEHYDRATION

CAMELBAK®

THE ULTIMATE CURE FOR DEHYDRATION

THE PROTOTYPE THAT BECAME THE FOUNDATION of the CamelBak® hydration system was born out of the necessity to drink water hands-free. In 1989, paramedic Michael Eidson wanted to push his past limits in a Texas-hot, 100-mile bike race called the Hotter'N Hell 100. He rigged a hydration system using an IV bag, surgical tubing and a tube sock. With it, CamelBak was born. WE'VE COME A LONG WAY SINCE THE DAYS OF THE TUBE SOCK.

1989

CAMELBAK INNOVATIONS

REST STOPS ARE OVERRATED.

1995

2001

2006

2009

FILL UP FAST: External fill port opens wide, closes with a snap, and lets you reload water without reloading your reservoir.

PACK IT TIGHT: Redesigned reservoir compartment secures the Antidote™ comfortably against your back, leaving more room for layers and gear.

GET A LIFT: Handle drop slot loads easily and suspends water weight for unmatched stability.

BUILT FOR HYDRATION

At CamelBak®, hydration is at the core of every pack we design. Now, with the new low-profile Antidote™, we've re-engineered our packs to optimize performance and maximize cargo.

CAMELBAK® GOT YOUR BAK LIFETIME GUARANTEE™

CamelBak packs and reservoirs are built to withstand the toughest adventures.

That's why we're backing every one with a lifetime guarantee. If we built it, we'll Bak it™, no matter how far you go.

HANG IT UP: Hanger clicks in fast with the Quick Link™ system.

AIR IT OUT: Folding arms lock out for faster drying.

GET A GRIP: Quick-seal cap is a snap to open.

CUT THE WEIGHT: Lighter fill-port takes the edge off your load.

KEEP IT TIGHT: Center baffling and low-profile design offer unmatched stability.

MEET THE ANTIDOTE™

More than just a reservoir, the Antidote is a specialized performance system connecting you to the hydration you need. Seamlessly integrated into our specialized packs, with quick-connect enhancements and unparalleled stability, the Antidote is light, low-profile and perfectly equipped for any dose of adventure.

(DON'T BUCK) THE QUICK LINK™ SYSTEM

From its IV-inspired beginnings, CamelBak® has continuously innovated to redefine how people hydrate. Now, with the new Antidote™ reservoir, we've launched a fully customizable system of hydration technology to help you maximize intake and optimize performance. With the Quick Link™ system, multiple innovations simply click into place, so you can build the system you need to deliver the performance you want.

FRESH™ RESERVOIR FILTER

ON-THE-FLY TASTE FILTRATION

Stay hydrated with fresh-filtered water, wherever adventure takes you

- Fast Filtration: Filters out bad taste and odors with every sip
- Fast Filtration speed does not impact flow rate
- Clicks onto any CamelBak® reservoir with Quick Link™ system
- Keeps the water flowing—and you going—with up to 120 L use / per filter
- Works with OMEGA® reservoir with purchase of Quick Link™ Conversion Kit

ANTIDOTE™ INSULATED TUBE

KEEP YOUR COOL, ALL YEAR LONG

- Antidote™ Insulated Tube keeps the heat and cold out
- Includes PureFlow™ delivery tube, insulated cover, Ergo HydroLock™, Big Bite™ Valve, Quick Link™ connector
- Clicks onto any CamelBak reservoir with Quick Link™ system
- Works with OMEGA® reservoir with purchase of Quick Link™ Conversion Kit

ANTIDOTE™ INSULATED TUBE DIRECTOR™

BENDABLE, STAYS-WHERE-YOU-PUT-IT TUBE FOR TOTALLY HANDS-FREE HYDRATION

- Position tube for convenient, hands-free drinking
- No need to reach for a drink
- Antidote™ Insulated Tube keeps water cool
- Clicks onto any CamelBak reservoir with Quick Link™ system
- Works with OMEGA® reservoir with purchase of Quick Link™ Conversion Kit

ANTIDOTE™ INSULATED TUBE WITH FLOW METER™

ADD INTELLIGENT HYDRATION TO YOUR ANTIDOTE, WITH JUST ONE CLICK

- Gauges how much water you drink, and how much is left in your reservoir
- Programmable interface lets you set and monitor personal hydration goals
- Insulated cover keeps the heat and cold out
- Clicks onto any CamelBak reservoir with Quick Link™ system

REACH NEW LIGHTS

When you've set your sights on the summit, every ounce counts. That's why CamelBak's new Highwire 25™ is built on the all-new LV™ (Lightweight Ventilated) back panel, freeing up weight for other essentials.

VANTAGE 35™

The ultimate reservoir-integrated solution for technical outdoor pursuits ranging from a full day to a full weekend.

CAMELBAK® **GROOVE™**

You're on the move, but you still want clean, fresh-tasting water without the disposable bottled water guilt. Meet CamelBak® Groove™, a bottle with a filter built right into the straw. Re-usable, BPA-Free, and spill-proof, CamelBak® Groove™ allows you to drink filtered water exactly the way you want.

**FILTERS AS YOU SIP,
HYDRATE ON THE GO.**

1

YOUR WATER

Turn tap water into fresh, great-tasting water anywhere you go.

2

YOUR WAY

CamelBak® Groove™ is easy to refill and easy to use. Plus, it's a CamelBak® bottle that is durable, BPA-Free, easy to carry and spill-proof.

3

FLIP & SIP

Sip with ease, flip shut for storage and no spills with the patented CamelBak® Big Bite™ Valve.

GROOVE™
STAINLESS
STEEL
.6 LITER/
20 OUNCES

GROOVE™ STAINLESS STEEL

High-quality 18-8 stainless steel makes CamelBak® Groove™ durable, portable and lightweight. And, unlike aluminum, stainless steel needs no liners or inner coatings so these bottles are 100% BPA-Free.

BETTER BOTTLE™

Life moves fast, and you've got your hands full. The Better Bottle™ has a spill-proof bite valve that opens with a bite and closes automatically after you sip. It keeps you hydrated, keeps your stuff dry, and keeps up with the pace of your life.

BITE-SIP-GO!

1

DRINK MORE

Healthy hydration has never been easier. A recent study showed people drank up to 24% more water with the Better Bottle™.

2

BPA-FREE

The CamelBak® Better Bottle™ is 100% BPA-Free, so it's worry-free from the very first sip.

3

ONE-HAND USAGE

Flip, bite and sip. No tipping required (though possible: just remove the straw).

4

EASY TO CLEAN

Each durable bottle is stain-resistant and dishwasher safe.

BETTER BOTTLE™ INSULATED

Now available in both Tritan™ and Stainless Steel, our Insulated Better Bottles feature double-walled insulation to keep the cold in on hot summer days. Spill-proof and sweat-proof, with a one-handed bite-and-sip cap, our insulated bottles stay cool, even when the heat is on.

KEEP COOL. NO SWEAT!

1

NO SWEAT

Prevents your bottle from sweating, even when you can't.

2

KEEP YOUR COOL

Micro-welded, double-wall bottle insulation keeps drinks cold longer.

3

FLIP & SIP

Sip with ease, flip shut for storage and no spills with the patented CamelBak® Big Bite™ Valve.

CUSTOM PRINT PROGRAM

This style available for custom printing. Call your CamelBak® representative to get started.

INSULATED BETTER BOTTLE™

Lightweight, durable and made from BPA-Free Tritan™ plastic, these bottles keep cool in any adventure.

INSULATED STAINLESS

GO STAINLESS

Unlike aluminum bottles, our stainless steel bottles have no coatings or liners, so they're naturally taste-free and BPA-Free. Vacuum-insulated construction keeps drinks cold all day.

BETTER BOTTLE™ + CLASSIC BOTTLE STAINLESS STEEL™

The bottle that started it all is available in durable stainless steel. Unlike aluminum bottles, our stainless steel bottles have no coatings or liners to come between you and your beverage, so they're naturally free of taste and BPA. Available in Better Bottle™ and Kids' Bottle styles, our rough-and-tough line-up is ready for any adventure.

1

FLIP & SIP

Sip with ease, flip shut for storage and no spills with the patented CamelBak® Big Bite™ Valve. The Kids' .4L version features the new CamelBak® Kids' Bottle bite valve cap.

3

ABOUT STYLE

Available in single-wall .75L size and single-wall .4L kids' size in a variety of colors and graphics.

2

KEEP IT SIMPLE

CamelBak® Stainless Steel bottles are naturally taste-free and BPA-Free.

4

KEEP IT FRESH

Our wide-mouth opening is easy to fill with ice and water and a breeze to clean. Compatible with standard 63mm caps, filters and other accessories.

KIDS' STAINLESS STEEL

JUST THE RIGHT BITE!

Easy for small fingers to operate, the clever cap flips open at the touch of a button.

CUSTOM PRINT PROGRAM

This style available for custom printing. Call your CamelBak® representative to get started.

KIDS' BOTTLE

Just the Right Bite! Simple for kids to use and simple for parents to clean. **Never Spill!** Easy for small fingers to operate, the clever cap flips open at the touch of a button.

1 EASY SIPPING, NO SPILLING

Our patented Big Bite™ Valve is still the very best way to drink what you need. And it won't spill if it's left open.

2 BPA-FREE

The CamelBak® Kids' Bottle is BPA-Free, so it's worry-free from the very first sip.

3 ONE-HAND USAGE

Flip, bite and sip. No tipping required (though possible: just remove the straw).

4 FUN TO USE

The drinking spout pops up at the touch of a button, so it's fun and easy for kids to use.

5 EASY TO CLEAN

Each durable bottle is stain-resistant and easy to clean.

PERFORMANCE BOTTLE

.65 LITER/
22 OUNCES

Lightweight, squeezable and topped with our spill-proof Big Bite™ Valve, our Performance Bottle is road-worthy, trail-ready and perfect for the gym, too.

CUSTOM PRINT PROGRAM

This style available for custom printing. Call your CamelBak® representative to get started.

1

NO SPILLS, NO SPATTERS

Sip anytime without splashing as you run or ride. Twist the cap to shut off water flow on the way to your workout.

2

BPA-FREE

Like all CamelBak® Better Bottles, the Performance Bottle is 100% BPA-Free, so it's healthier from the very first sip.

3

SIP IT IN STRIDE

Big Bite™ Valve and straw allow for easy drinking without taking your eyes off the road or trail.

4

STAY TRUE TO TASTE

TruTaste™ – a proprietary blend of polypropylene – lets you taste your beverage, not your bottle.

5

GAUGE YOUR INTAKE

Fuel gauge makes it easy to stay on top of hydration.

6

LOCK IN AND GO

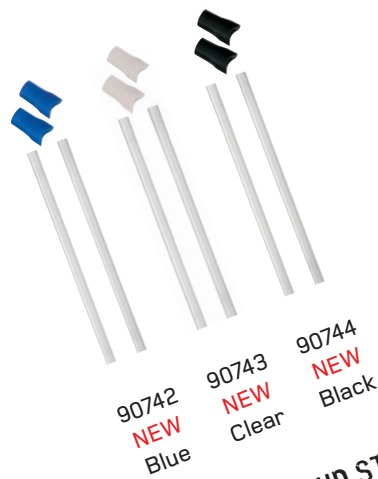

Fits securely in bike cages for on-road and off-road adventures.

ACCESSORIES

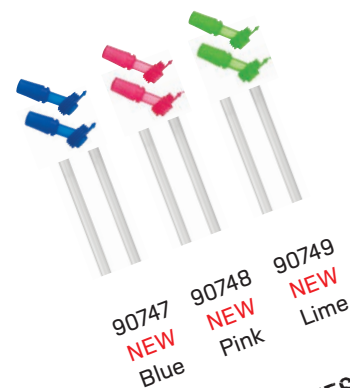

INSULATED BOTTLE SLEEVE

- Fits .75L Better Bottle™ and .75L Better Bottle™ Stainless
- Insulation keeps liquids cool or warm and reduces bottle condensation
